

Job Description : Software Engineering Intern

At Cloudera, we empower people to transform complex data into clear and actionable insights. With as much data under management as the hyperscalers, we're the preferred data partner for the top companies in almost every industry. Powered by the relentless innovation of the open source community, Cloudera advances digital transformation for the world's largest enterprises.

As a Software Engineering Intern, you will:

- Design & develop software products across various platforms and technologies
- Maintain & improve the performance of existing software
- Test & maintain software products to ensure strong functionality and optimization.
- Brainstorm and contribute ideas to our technology, algorithms and products
- Dive into challenging technical problems and successfully deliver results
- Work with product, design, customer-success teams to understand end-user requirements
- Formulate use cases, and translate those into effective technical solutions
- Clearly and regularly communicate with management and technical support colleagues

We're excited about you if you have:

- Strong Coding skills (C++, Java, and/or Python)
- Knowledge of UNIX/Linux or Windows environments and APIs.
- Solid understanding of TCP/IP , Network Programming and Operating Systems
- Excitement about and experience in contributing to open source projects
- Strong written and verbal communication skills
- Grade X & XII, BE/ B.Tech : CSE/ ISE I 7th sem & M.Tech (CSE) $\geq 80\%$ (CGPA: 8.0)
- No backlogs

What you can expect from us:

- Generous PTO Policy
- Support work life balance with Unplugged Days
- Flexible WFH Policy
- Mental & Physical Wellness programs
- Phone and Internet Reimbursement program
- Access to Continued Career Development
- Comprehensive Benefits and Competitive Packages
- Paid Volunteer Time
- Employee Resource Groups
